

Walk Through Metal Detector

Model: SPW-200S

SPW-200S Walk through Metal Detector can easily detect metal weapons, such as knife and gun, and any metal article which is hidden in human body. Levels adjustable sensitivity for better detection of hazardous metals.

Features:

- ★ Updated Digital Pulse Technology
- ★ Automatically Calibration
- ★ Perfect immunity to external interferences
- ★ High Reliability and speed of detection
- ★ Single zone

General Data:

- Input electric current: 110VAC to 240VAC, 50-60 Hz.
- Operating Temperature: -20°C~+45°C
- Storage Temperature: -20°C~+60°C
- Relative humidity: 0 to 95% (without condensation)
- Gross Weight: 48kgs
- Outer frame: 2220mm (h) x 820mm (w) X 430mm (d)
- Inner frame: 1980mm (h) X 700mm (w) X 400mm (d)

Specification

- Self Diagnostics: friendly self-testing diagnostics to identify faulty condition.
- User Programmable Processor
- Counting of number of persons passing the sensing zone-inbound/outbound
- Lightweight, Rigid, laminated side panels and cross piece, ABS plastic boots for panel protection
- Easily accessible, modular design with standard plugs and connectors.
- throughput rate.:30 persons or more per minute.
- Alarm: Audible alarm on detection with adjustable volume.
- Zone sensitivity & Adjustment : Single Zone along with minimum 12 frequencies
- 0-99 sensitivity level adjustable
- Modular structure to easy after service
- Good performance in anti-interference ability.
- Security Password protection
- Harmless to pregnant women, people with pacemakers and / or any other vital device
- Adjustable operating frequencies---eliminate the potential effects from X-ray units, radios and other electrical interference sources.
- High brightness digital display board show Alarm area, the number of people pass, the number of alarms, the alarm signal strength instructions.
