H265 Hard Disk Model All In One Device(MDVR+VPC)

1. Video surveillance and people counting are combined in a device.

2. People counter:

- 1) high precision counts (> 97%).
- 2) Binocular 3D stereo vision cameras.

3. Mobile DVR:

- 1) 1080P video resolution (1920X1080).
- 2) Can be integrated with external devices through RS232 and RS485.

- High precision counting accuracy (>97%)
- 4CH Video Input, 2CH Video Output
- Really Vandal-proof & EMC for buses
- Excellent power protection 9-36V,10A max
- Effectively distinguish bidirectional moving, shoulders, retention, wandering, luggage, etc.
- Well-tested design in thousands of buses over the world
- 195-300cm (height), 80-300cm(width)
- Easy setup and connection to IPAS system
- 300,000pcs of records saved in memory
- Smartly Resent records when network is lost
- 30-90MB data plans only every month
- Used in step environment
- Built-in 3G/WIFI/GPS optional
- Max 4bus doors with combination of counters **Power Supply**
- 3D Binocular Camera: ≤ 3 W
- BPC-V1 ≤ 8 W
- BPC-V2 ≤ 11 W **Environmental**
- MTBF:>6000 hours * Temperature range:-25~+55°C
- Relative Humidity:10% - 90%
- Heat radiating : Passive heat output (natural cooling)
