Packing	5PCS/CTN, 18.5KGS/CTN, 56.5*34*32/CM

Radio Frequency Identification (RFID) Technology for Hotels

RFID or proximity technology

MIFARE CARD

All ... Locks is based on MIFARE. With a short read-range, MIFARE is uniquely suited to perform increment / decrement functions. Although contact smart cards can also do the job, contactless readers are faster and easier to use, and there is virtually no maintenance on the readers, or wear and tear on the cards. The MIFARE proprietary technology is based upon the ISO.IEC 14443 Type A operating at a frequency of 13.56 MHZ contactless smart card standard.

ENERGY – SAVING SWITCH

HOTEL LOCK SYSTEM

Is specially designed for hotel to save energy and money when the guests are not in their room.

Working Voltage:	AC 220V±10%
(Other voltage can be ordered, such as AC110V, DC 12V)	
Max Load Working Current:	30A
Total Load Power:	6600W
Static Consumption:	1W
Delay Time:	About 15 Seconds
No-working Situation:	Indicate in red
(Other color indication can be ordered)	
Cover Material:	fire-resistant PC
Weight:	170g
Packing:	100PCS/CTN,18KGS/CTN,46.5*33.5*40CM

SWITCH

HOTEL LOCK SYSTEM

0309-2 MCP(Mifare 1 Card)
0309-2 TCP(Temic/ID Card)

0309-2 MGS (Mifare 1 Card)
0309-2 TGS (Temic/ID Card)

● Insert the Key Card to turn on the power (Light and Air Conditioning etc)

● Remove the Key Card, the power will be turned off automatically after 15 seconds, thus saving money.

● Simple installation.

● LED for easy location when entering the room in the dark.

● Optional (should specify when give order)
