

SE-SE600T

Portable Walk Through Metal Detector

SE-SE600T Portable walk through metal detector adopt advanced techniques ,with a number of patents and certificates on material, the appearance,technology and structure .

It is a lightweight ,high-performance walk through scanner with high sensitivity ,portable,waterproof ect features,One operator can transport it easily to any locations and finish installation within 5mins , Ideal for security checks at stadiums, conferences, schools and other events. The unit is easy to operate and settings are self explaining. .

The gate adopt an electromagnetic field to detect metal objects through sound & light alarm. The gate consist of the host , the high-frequency signal generator, signal receiver , infrared sensors and other components , with super metal detection function, the unique internet remote control management system, and can be taken apart to 8 components, It is easy for you to carry and transport .

Advanced Technology

- Multi-zone technology: 24/33 detection zones,can change detection zones intelligently (upgrade technology of each zone can be provided).
- Touch screen: 7-inch HDMI LCD touch screen,iPad interface style,easy to operate and understand.
- Mobile connection technology: realize mobile APP remote control
- IP Grade: IP55 superior waterproof performance(optional)
- Self calibration once power on
- Self diagnostic, it will inform the user when exit the system
- Start-stop technology:infrared devices with automatic start-stop technology.

Portable and easy carry

Three colors to choose

Features and Functions

- Adjustable sensitivity of each detection zone
- Multi-alarm sounds to choose
- Operating frequency can be adjusted manually or automatically
- Move after folded or installation(two move methods to choose)
- Detection technology: Even detection technology,no blind spot
- Internet technology:Remote upgrade system and remote control system
- Working band: 100 working bands
- Sensitivity of each detection zone:255 level
- Statistics: Record the pass and alarm numbers
- Query function: The system has real-time information query function
- Intelligent Standby: The system has intelligent standby operation alerts
- Detection speed: more than 60 people pass and detect in 1 minute

7-inch LCD touch screen
easy and simple operation

Technical Parameters

- | | |
|--|-------------------------------------|
| ● Detection objects: knives, guns, coins | ● External Dimension:2250x850x500mm |
| ● Passage Dimension: 2051x710x500mm | ● Fold Dimension:889x606x484mm |
| ● Packing Dimension: 1000x720x590mm | ● Humidity: 99%, non-condensing |
| ● Working environment: -40 °C~85 °C | ● Weight: NW 48KG, GW 53KG |
| ● Input : AC 110V~240V/50Hz~60Hz | ● Output : DC 12V/5A 12W |
| ● Power supply: the whole system is equipped with polymer battery, life time 8,16,24,48,72 hours (optional). | |

SPECIAL FEATURES

 -40°C
 85°C

● High/Low temperature Resistance

Able to work at -40°C ~ 85°C.

● Waterproof

The new deep sea waterproof technology,

● Wireless connection

Control the walk through metal detectors anytime and anywhere. Through WiFi, 4G data, Bluetooth, access the wireless Internet, via mobile phone APP, PC to realize remote control and data monitoring.

● Long time power supply

Lithium battery, the whole system is equipped with polymer battery, life time 8, 16, 24, 48, 72 hours (optional).
